**Re: Canada IGC 2028 Foundation – Letter of Support**

To whom it may concern,

The **Canadian Meteorological and Oceanographic Society (CMOS)** is the national society of individuals and organizations dedicated to advancing atmospheric and oceanic sciences and related environmental disciplines in Canada. The Society's aim is to promote meteorology and oceanography in Canada, and it is a major non-governmental organization serving the interests of meteorologists, climatologists, oceanographers, limnologists, hydrologists and cryospheric scientists in Canada.

CMOS has partnered with the Canada IGC 2028 Foundation to support Canada's bid to host the 38<sup>th</sup> International Geological Congress (IGC) in 2028.

Best regards,

Gordon Griffith, P.Eng., ing., FEC  
Executive Director  
CMOS
